Sonora, CA 95370

April 6, 2009

Dear: Supervisor Skalski

The Tri-County Offroad Club (T-COC) will support the grants listed below with requesting some changes to the grant application. T-COC would like to see some improvements to the Crandall and Deer Creek OHV Staging Areas. At Crandall Staging Area we feel that there should be some maintenance to clean up brush piles and level out the campsite areas that were disturbed during the recent logging operations. T-COC would also like for Road 4N01 to be graded and graveled to the Crandall Staging Area. T-COC request that the Sewco not be used on the single-track motorcycle trails, which widens these trails. Instead we would suggest the use of the Conservation Crews that may be available to maintain this special and unique trail system. The use of the Sewco may be needed to maintain certain sections of trail that are already wide as an ATV. The trails in the Deer Creek / Crandall Area are some of the last single track left in the forest. T-COC would also request that a more user-friendly visitor trail map be produced in conjunction with a 24-hour phone number that would update visitors to forest conditions similar to the Wood Cutting Hotline.

Tri-County Offroad Club would support increasing the Ground Operations grant request in the advent of the additions requested by us being included in the grant.

2009 Stanislaus NF OHV Projects

Project #	Project Name	Grant Request	FS Match	Total
G08-02-XX-G05	Ground Operations- Stanislaus NF	252,000	154,000	406,000
G08-02-XX-P01	Planning- Mi-Wok	12,000	8,000	20,000
G08-02-XX-P02	Planning- Groveland	15,000	8,000	23,000
G08-02-XX-R01	American Camp Restoration	29,000	17,000	46,000
G08-02-XX-R02	Gargoyles Restoration	11,000	10,000	21,000

Sincerely

Aaron Davis
